

A DEMOGRAPHIC PROFILE

of

SENATE DISTRICT 14

and Other Districts in the Utah Senate

Office of Legislative Research and General Counsel

Utah Legislature

SUMMARY

This report presents a demographic profile of Utahns, particularly those living in Senate District 14, based on recently released data from the 2000 U.S. Census.

WHAT DOES SENATE DISTRICT 14 LOOK LIKE?

- How many school-age children live within the district?
- What percentage of adults have graduated from college?
- In what industries do the residents of District 14 work?
- How many residents have moved since 1995?

Data in this report answer these and other questions about residents of Senate District 14 and other Utahns.

HOW DOES SENATE DISTRICT 14 COMPARE TO THE STATE AND OTHER SENATE DISTRICTS?

- Is the poverty level higher or lower than the state average?
- Do residents of the district spend more or less time than other Utahns commuting to work?
- Which districts are most similar to District 14?

This report shows how Senate District 14 compares to other Senate districts and the state in 16 demographic areas.

WHO LIVES IN SENATE DISTRICT 14?

The tables below portray a hypothetical "typical" person and household in District 14 – one that doesn't necessarily exist, but that would reflect the most frequently occurring demographic characteristics within the district. However, as the other tables in this report illustrate, there is much more diversity in the origins, accomplishments, and living conditions of people within the district and the state than can be captured by a single statistic. The balance of this report explores that diversity.

SOURCE OF DATA

This report is based on Summary File 3 (SF3) data from the U.S. Census Bureau's 2000 Census of Population and Housing. SF3 includes 100 percent and sample data and may be obtained from the Office of Legislative Research and General Counsel or downloaded from the Census Bureau at <http://www.census.gov>. Legislative district boundaries are from the 2001 redistricting.

METHODOLOGY

SF3 statistics are reported for various geographic areas. Block group data are the lowest level of aggregation available for each demographic characteristic in this report and are the basis for calculating the statistics for each legislative district. Block groups within a district are summed to arrive at district totals. Where a block group is not contained within a single district, the block group statistic is allocated to the districts containing the block group based on block level population data.

ACCURACY

The data in this report are subject to two basic types of error – error associated with the underlying SF3 data, and error introduced as a result of the methodology used to allocate SF3 data to legislative districts. *Summary File 3 Technical Documentation* (also available at Legislative Research and General Counsel and <http://www.census.gov>) includes a complete discussion of the first type of error and methods for calculating standard errors and confidence intervals for each sample statistic. The second type of error occurs to the extent block group statistics are allocated to more than one legislative district.

ADDITIONAL INFORMATION

Only a portion of the SF3 data produced by the U.S. Census Bureau has been aggregated to the level of legislative districts and included in this report (this report uses 310 of the 16,500 data fields included in SF3). SF3 also includes data on school enrollment, disability status, veteran status, sources of income, and various other population and housing characteristics. SF3 data for population and housing characteristics not included in this report may be obtained by legislators at the district level from the Office of Legislative Research and General Counsel upon request. SF3 data for other geographic areas may also be downloaded at <http://www.census.gov> using the American Fact Finder. The Utah State Data Center in the Governor's Office of Planning and Budget reports selected census data for the state, Utah cities and counties, and other geographic areas in the *Utah Data Guide* and at <http://governor.utah.gov/dea>.
